PART OF SPEECH NOT ANNOUNCED STILL MYSTERY

Speculation on "Scoop" Portion of Acceptance Speech of Governor Cox.

Democrats From All Over Country Assembling at Dayton for Saturday's Ceremonies.

(By Associated Press)

Dayton, O., August 6. — Democratic clans were gathering here today for the formal notification exercises for Governor Cox and to hear the candidate's address of acceptance, declaring the broad lines of the campaign, to be delivered tomorrow.

With Governor Cox's acceptance address in type for tomorrow afternoon's newspapers, speculation increased today regarding the brief but important insert he has announced would be forthcoming tomorrow.

The Governor continued to hold it a secret. Speculation on its message centered principally on three subjects — a possible challenge to Senator Harding, his republican opponent, for joint debate on the league of nations; a specific statement on Article Ten, or a definite announcement regarding the prohibition issue.

The Governor is scheduled to begin tomorrow's address about three o'clock, several hours after newspaper publication of his address in most localities.

The parade of visiting delegations expected to aggregate about 15,000, is to start from the Montgomery county fair grounds about one o'clock.

ASK HIGH COURT TO REOPEN THE VOLSEAD CASE

Supreme Court Petitioned for Reconsideration of the 18th Amendment Decision.

Claims No Reason Set Forth by Court in Making Decision.

(By Associated Press)

Washington, August 6. — William D. Guthrie and Elihu Root, counsel for Christian Seigenspan, a brewer, of Newark, N. J., today filed with the United States Supreme Court a petition for a reconsideration of the Court's decision on June 7th, sustaining the validity of the 18th amendment and part of the Volstead enforcement act.

The latest petition points out the importance and magnitude of the constitutional questions involved and declares that "so far as the petitioner has been able to ascertain there is no record of any important modern case involving such vital questions being disposed of by a court of final resort without explaining its conclusions."

"Furthermore," it is set out, "the conclusions do not completely answer questions actually involved in the litigation."

Fear of Renewed Rioting in Denver is Expressed as Result of Bloodshed Last Night

Two Dead and 34 are Injured While Property Damage is Heavy.

Owner of Denver Post Says Town is Without Protection

Five Killed and Many Hurt in Clash With Foreigners at Frankfort, Illinois.

(By Associated Press)

Denver, August 6. — Fear that rioting by street car strikers, their sympathizers and strike breakers, which last night resulted in the death of two and the injury of 34 persons, would be resumed was expressed in official circles today.

Citizens today were responding to a proclamation issued by Mayor Bailey calling for 2,000 volunteers for patrol duty. The police were helpless last night before the mob which proceeded on its journey of destruction until it tired itself out. Reports from hospitals today indicated the injured probably would recover.

No attempt was made this morning to operate cars. Yesterday was the first day since the trainmen struck for higher wages on Sunday that the tramway company was able to haul passengers. The cars were manned by armed strike breakers.

The mob which remained around the tramway building did not disperse until daylight this morning.

H. H. Tammen, one of the owners of the Denver Post, whose building was damaged by the mob, said today he could not estimate damage by the crowd to the Post plant.

"The town is without protection," said he. The Post was issued as usual from its own plant today.

Strike breakers at the South Denver car barns today patrolled the yard in front of the barn with rifles on their shoulders. Last night's two fatalities occurred in a clash at these barns.

MOUNT MACHINE GUNS IN DENVER TO HOLD RIOTERS

(By Associated Press)

Denver, Col., August 6. — In preparation for possible resumption of hostilities tonight police today prepared to mount machine guns. Hundreds of sawed off shot guns and army rifles were being assembled at police headquarters. Up to 11 a. m. more than 600 citizens had answered Mayor Alley's call for volunteers.

A heavy police guard surrounded the offices of the Denver Post today. Inside the building looked as though a tornado had swept from one floor to another. All windows were gone and broken furniture was scattered everywhere.

"CAN NEVER REPAY IT" SAYS VIRGINIA WOMAN

Mrs. Addie Green Dreaded for Meal Time to Come, She Suffered so From Indigestion --Feels Fine Now.

"I will praise Tanlac as long as I live," and after what it has done for me I don't think even at that I can ever say enough for it," said Mrs. Addie Green, R. F. D. No. 1 Box 208, Portsmouth, Va.

"For the past year I had suffered terribly from indigestion, and everything I ate, no matter how small the amount would nauseate me and cause a heavy, miserable feeling in my stomach. I had a very poor appetite, and suffered so much after eating I just dread to see meal time come. There seemed to be gas on my stomach all the time, and I had terrible pains which extended into my chest and shoulders and even through to my back. I had great difficulty in breathing and it was almost impossible for me to get along breath. My nerves were in such bad shape that even the children playing around the house almost drove me distracted. I could never sleep more than a few minutes at a time during the night, and in the

mornings I always felt worse than when I went to bed. I began to have rheumatism in both arms, which pained me so much I was in perfect agony all the time. My arms were so stiff and hurt me so bad I could not raise my hands to my head. I had headaches all the time, my head hurt me worse and worse every day, till the pain was just about all I could bear.

"A friend of mine told me of how much good Tanlac had done here and advised me to try it so I began taking it and it has helped me like my friend said it had helped her. My improvement on the first bottle was simply remarkable, and as I continued taking it I continued to improve until now all my troubles are gone. I can eat anything I want and all I want without suffering a particle from it. The rheumatism has left me entirely. I sleep well, and always get up feeling greatly refreshed. The headaches are gone, I never have a pain of any kind and feel so good all the time I can do my housework with the greatest ease."

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Octa by L. W. Murphy and in Millidgeville, E. L. Ford Sons, Lee Orman, Seiden. — Advt.

Definite announcement is promised in the near future.

RUSS. SITUATION MOST SHOCKING

Rome, (By Mail).—Signor Dugoni, the socialist deputy, who has just returned from Russia after a month's stay declared "the situation there is most tragic and shocked every member of the Socialist delegation."

Lenine's experiment, he said, was a complete failure. Industrial production had decreased 50 percent, transports were utterly disorganized, trains were running at 20 miles an hour at the pleasure of trainmen, and the locomotives were burning wood. Filth and pauperism were visible everywhere. Signor Dugoni said the Italian proletariat was the least fitted for such an experiment.

Signor Serrati, Editor of the Avanti, publishes a leading article confirming the arrangement of Lenine made by Dugoni.

SNOWDRIFT

Look at It

—and see why Snowdrift was named Snowdrift.

Its whiteness is not the reason Snowdrift is pure but purity is one reason Snowdrift is white.

Only the finest vegetable oil is used in making Snowdrift. This choice oil is always light in color. When it is hardened and whipped — somewhat as one beats the white of an egg — it makes Snowdrift a creamy, fluffy white fat.

This purity of Snowdrift also insures delicacy of flavor. No really good cook wants food to lose its own flavor and "taste" of the fat she used. Snowdrift is rich, much richer than butter, but it is so pure and delicate that it does not alter the flavor of food cooked with it, in the least.

Snowdrift is fresh, white, creamy vegetable fat — a perfect fat for every use in cooking — perfectly pure and with the rich, nourishing food value of 100 per cent pure fat.

IRISH QUESTION AT CLOSE RANGE

(By Associated Press)
Dublin, (By Mail)—Besides their resolutions acknowledging allegiance to Daill Eirrean and their sympathy with the Easter Week Rebellion, the new Irish Local Councils are giving many evidences of an advanced Sinn Fein attitude.

At Cavan they have decided to cut off the water supply to the military and police barracks. In north Tipperary they have refused to accept the services of policemen appointed to act as inspectors under the Food and Drugs Act. At Longford they have refused to apply the Vaccination Acts until they learn whether or not Daill Eirrean approves of vaccination. Everywhere they are refusing to make income tax returns.

Many of the higher officials of the new bodies are magistrates, and they are being ordered, and in most cases obeying the order to resign their commissions as justices of the peace.

If you must argue, choose a subject you know something about then keep your mouth shut and listen.

U. S. THREATENS THE ENGLISH COAL MONOPOLY

(By Associated Press)
Newcastle-On-Tyne, (By Mail)—America is threatening the British coal monopoly of Europe. W. J. Noble, chairman of the Tyne Improvement Commission, in the course of a recent speech drew attention to new competition from the United States and Australia.

Recently he saw in Scandinavia, he said, vast stacks of coal from America and saw a contract concluded for 200,000 tons of coal from Australia. He had learned also he said, that last year the United States exported nearly 21,000,000 tons of coal to Europe and South America, compared with 1,500,000 the year before the war.

There was a real danger of under-estimating the American coal competition in markets which were once virtually the monopoly of this country, he declared.

Increased production was necessary to regain trade, said Mr. Noble, and with the recent advance in the United States in the price of coal and the government embargo he believed there was an opportunity to do it.

LIVE RATTLER IS CAPTURED

A real live rattlesnake—a native of Fayette county — was attracting considerable attention in this city Friday morning, having been captured by Homer Samson on his farm on the Sabina and Greenfield pike, occupied by Merrill Looker.

The rattler was of the prairie type and while only 22 inches in length had six rattles and a button and fangs that were nearly one-half inch in length and sharp as a needle.

The snake was found in a wheat field and by the aid of a pitchfork was captured by Mr. Samson, placed in a glass jar and brought to Washington. It was presented to Irwin Bell with the compliments of Mr. Samson, and Mr. Bell speedily passed it on to Druggist Christopher, who decided a little chloroform would make the deadly reptile less dangerous, and poured about three tablespoons full into the jar. The rattler squirmed about for a half minute, then assuming a coil such as the reptiles assume when about to strike, it ceased its struggles, and even its tail ceased to wiggle at the same time.

Examination of the snake showed fangs nearly one-half inch in length.

It is stated that rattlers in the locality of the Samson farm are not uncommon, and that during hay harvest last year 20 of the rattlers were killed.

will be unnecessary if you simply demand that the fuel you burn delivers its full quota of miles from each gallon.

Contrary to the belief held by many there IS a vast difference in gasoline. Some "seems" to give good results; another may "burn" freely while still another may have an abundance of "pep" but what you want is all this plus power.

Liberty Gasoline

proves its worth when measured by your speedometer. It has plenty of "pep," a tremendous supply of power which is extracted easily because it explodes quickly and cleanly. If you haven't tried Liberty you don't know how much difference there can be.

Something Remarkable About Auto Batteries

It's truly remarkable how some batteries hold up and others are constantly in the shop for new parts, tests or re-charges. Here is something of interest to prospective battery buyers.

Last December, right in the heart of winter, we began operations here and commenced putting out the

Two-Year Cooper Battery

and the remarkable thing about these batteries is the small number coming back for repairs and practically none returning for re-charge. There is no battery, we believe, with the chemical action of the Cooper, and that's what prevents heating inside; thus the plates are not injured and therefore they hold the charge longest.

Our Old Sidewalks

Our resurfaced up town—business section—streets are a joy to see and it is a pleasure to travel over the sections that have been finished and opened to traffic.

Hundreds of citizens of town and country are enjoying the completed work and anticipating with pleasure the finished streets.

There is one drawback to the whole hearted, unalloyed appreciation of what we have and what we are getting and that is the sidewalks and curbing.

We have, all of us, realized for some time that long stretches of sidewalk in the business sections of the city were in wretched conditions, but they were not quite so unsightly nor so noticeable as long as the streets were "ratty" looking too. Now, since we have the streets finished up in metropolitan boulevard fashion, the broken and wobbly old sidewalks, with frequent puddles of mud and water in wet weather and patches of dust and dirt in dry weather, are as noticeable, as uncomfortable and as unsightly as a sty on the eye.

The new streets make the old sidewalks look so out of place and then they have been growing worse all the time. Actually (we dislike to acknowledge it) there are places in the main business sections of the city where grass is growing in the sidewalks, the low places filled with dirt and mud causing pedestrians to pick their way around.

Some Mystery

The mystery surrounding the plan of operations of the Boston get-rich-quick wizard has nothing on the mysterious plan of operation by which those men who are controlling the soft coal supply and fixing market prices, are taking millions from the pockets of the people.

The state authorities of Indiana are buying soft coal at \$3.50 for lump and \$2.50 for slack per ton, while private consumers here in Ohio are paying prices varying from \$10.00 to \$15.00 per ton.

The coal men are not selling coal to the state of Indiana at a loss. They are making a profit at \$2.50 and \$3.50 per ton. Then how, people ask, can the Ohio price to consumers be justified or excused.

It can't. They don't attempt to justify or explain it. They just go on getting the money and officials, paid a salary to protect the people from criminals go on doing nothing.

Come to think of it—why isn't furnishing coal to the state at about twenty-five percent of the price charged consumers a very good plan from the angle of the speculator? He makes a living profit, of course, and, in addition he gives the state officials an opportunity to make a good showing as purchasing agents and therefore puts them under obligations.

Vote for the Levy

The school authorities in this, Washington special school district, are asking the voters to give them a special levy of two mills for school purposes. The election is to be held next Tuesday.

As a rule we are not enthusiastically in favor of any proposal to increase taxes, and we are especially "set against" such proposals at this time when the burdens of living and the cost of government and the debts of war are so heavy.

Speaking generally we believe that the school authorities should be given just about what they ask for in the way of funds for maintaining the schools. They are and have been, for many months now, away below par in receipts. The truth about the matter is if we didn't have a number of patriotic, earnest, far seeing and unselfish men and women our schools would have been closed long ago. If the teachers had been "out for the money" like too many other men and women they wouldn't have stayed in the school rooms at beggar's wages.

We are not going into a detail explanation of this two mill proposal. It is not necessary. We know, and we know that the people know, that the schools need more money. We know that the officials and teachers are honest and, with few exceptions, modest in their demands and frugal in their living and we are going to endorse the proposal and ask the citizens to vote for the two mill levy.

POETRY FOR TODAY

SCYTHE SONG

Mowers, weary and brown and blithe,
What is the word me thinks ye know,
Endless over-word that the Scythe
Sings to the blades of the grass below?
Scythes that swing in the grass and clover,
Something, still, they say as they pass;
What is the word that over and over,
Sings the Scythe to the flowers and grass?

Hush, ah hush, the Scythes are saying
Hush, and heed not, but fall asleep;
Hush, they say to the grasses away-
ing,
Hush, they sing to the clover deep!
Hush—'tis the lullaby Time is sing-
ing—
Hush, and heed not, for all things pass.
Hush, ah hush! and the Scythes are
swinging
Over the clover, over the grass.

FARMING IS OHIO'S BIGGEST INDUSTRY

In the year 1919 the total value of the production of Ohio farms and factories amounted in round numbers to \$3,000,000,000. Of this amount, approximately \$1,000,000,000 or one-third of the total was the value of the products of the farm. In spite of the fact that Ohio is ranked among the foremost industrial states of the Union, she still ranks seventh among the states in the value of agricultural products. Agriculture is by far the largest single industry of the state, iron and steel ranking second. Many of the industries such as implement manufacture, slaughtering, milling, cigar making, tanning, and canning are directly dependent upon the farms.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

The M. H. G. Class in full quota, and accompanied by thirty-four children found the Junior picnic on the broad lawn of Mrs. Austin F. Hopkin's home Wednesday afternoon a particularly happy affair, enjoyed by the grown-ups as much as by the children.

The beautiful lawn, in perfect condition and gay with mid-summer bloom, presented a picturesque scene between the hours of three and five and when the balloons, given as favors to the children, floated over the greensward and the children chased merrily after them, it was prettiest of all. After a round of games and frolic the children were greatly entertained with readings by Mrs. O. D. Farquhar, of Hillsboro, Ill., a charming woman and delightful reader who has been frequently engaged in chautauqua work.

Delicious refreshments completed the afternoon's pleasure.

The afternoon's hostesses Mesdames Lulu Sheets, Arthur Burgett, Maring Myers, George Worrell, Frank Flee Jr., Frederick D. Woollard, Misses Verz Goddard and Ida Harvey, were assisted in every way by Mrs. Hopkins in the freely tendered hospitality of the home.

Miss Helen Straley charmingly entertained thirty young women and matrons, Wednesday afternoon at the home of her parents, Mr. and Mrs. Ed Straley, west of Jeffersonville.

The party was a miscellaneous shower and honored Miss Straley's cousin, Miss Salana Straley, who becomes the bride of Mr. Ray Fisher of this city, in the very near future. The honor guest a very pretty blonde, was becomingly gowned in white georgette. Miss Straley was wearing embroidered white organdie.

The hostess passed to the guests small heart cards on which they wrote their favorite recipes, the cards later being compiled into a little booklet a welcome gift for the bride-elect. Mrs. Rella Straley, an aunt of Miss Straley's and Miss Ruth Crumrine favored the guests with instrumental and vocal music throughout the afternoon.

There were many and lovely gifts, placed for the opening of the bride-to-be upon the dining room table, prettily decorated with a center piece of sweetpeas. Overhead extending from the chandeliers to the four corners, were red crepe paper garlands from which were suspended two red hearts. The entire table was bordered in smilax, the effect novel and attractive.

A most tempting collation was served, Mrs. Straley assisting her daughter.

The guests were: Misses Della Glass, Helen Daniels, Mary Fisher, Helena Straley, Hazel Williams, Ruth

Straley, Florence Hidy, Boulah Straley, Jessie Blankenship, Ruth Crumrine, Pearl Huffman, Corrine Flax, Julia Evans, Donna Straley, Mesdames Della Horney, daughter Mildred, Rella Straley, Stella Crumrine, Ora Rittenour, Homer Straley, Ida Gossard, Morna Straley, Fisher, Reba Straley, Blanche Rittenour, Eva Owens and Esther Williams, E. E. Straley.

The home of Mrs. Wm. Shoemaker on North street was the scene of an enjoyable birthday surprise Thursday for Mrs. Shoemaker's father, Mr. Henry VanGundy, who celebrated his seventy-seventh year. The guests arrived with well filled baskets, their contents providing an excellent dinner.

In the party were: Mr. and Mrs. Sherman Shoemaker, Mr. and Mrs. George Shoemaker and son Manuel of Chillicothe; Mr. and Mrs. John Nelson and father, Mr. and Mrs. Glenn Speaks and daughters Glenna and Norma Jean, Mrs. Fred Wellers, Mr. and Mrs. Ed Hidy, Mrs. Orland Toops and daughter Clara and sons, Dewey, Emmitt and Donald, Mr. and Mrs. Alpha Matson and sons Bernard, Wilbur and Arthur, daughter Eleanor, Mrs. Mary Marion, Mrs. Lavina Bogard, Mr. Louis Bogard, Mr. and Mrs. Orville Flint and small daughter, Geraldine, Mr. Henry Shoemaker of Bournville, Miss Thelma Shoemaker, Mr. Worley Van Gundy and Mr. Marshall.

Richard Elliott, the young son of Mr. and Mrs. Roy Elliott celebrated his seventh birthday, Thursday afternoon, with an out-door party at the home of his grand parents, Mr. and Mrs. R. M. Elliott on Paint street.

Thirty children spent the happiest kind of an afternoon in games and contests. In pinning the tail on the donkey, Waldeane Teachnor won the prize. A Fish Pond, formed of a large basket screened in asparagus, from which extended pink ribbons with a gift at the end for each child, was especially entertaining. Pictures of the entire party were taken.

The little guests were delighted to have Miss Anna Bell engineer their play assisted by Juanita Gerstner and Jean Michaelis. A dainty two-course lunch was served on the lawn. A birthday cake with seven burning candles mounted on a little pedestal was placed in the center of the group.

Mrs. R. M. Elliott and Mrs. Roy Elliott also assisted in caring for the children.

The guests included: Isabelle Chandler, Ada Kathryn Anders, Carrie Elizabeth Maddox, Kathryn Hudson, Lillian Schadel, Judith Ann Jackson, Waldeane Teachnor, Kathryn Taggart, Leona Gibson, Joyce Bishop,

Anna Marie Clark, Jean Inskip, Paul Feagans, Billie Dial, Edgar Barnett, Henry Pearce, Louis Mitchem, Herman Todhunter, Stanley Flee, Harold Hazard Bert Colwell Shimp, Willard McLean, John Gerstner, George Inskip, Tom Gardner Murry, Robert Joseph Stitt.

The Woman's Missionary Society of the Fairview church held its regular meeting, Thursday afternoon, at the home of Mrs. Charles Humiller on South Fayette street. Mrs. Susan Cochran, and Mrs. Harriet Boatman were the assisting hostesses.

A short but greatly enjoyed program was rendered, Miss Ward Hegler and Mrs. Ruth Rodgers contributing readings and Miss Helen McCune a piano solo.

Summer refreshments were served during the social hour.

The picnic given by member of the C. T. Sister hood of the Presbyterian Sunday School, and their families at Cherry Hill, was a delightful affair with almost seventy in attendance.

The supper consisted of every picnic delicacy.

At the home of Miss Fern Sunkle on West Market street, Thursday afternoon the Young Woman's Foreign Missionary Society of Grace Church gave a Japanese party, honoring the young girls in Mrs. Marcella Griffith's and Mrs. Jess Feagan's Sunday School classes.

These girls, Misses Evelyn Soddors, Margaret Baker, Mary Josephine Taylor Helen Rodecker, Mildred Todhunter, Jean Worthington, Elizabeth Bennett, Mildred McGee, Georgia Harper, Amelia Pensyl, Jane Stewart Helen Sunkle, Genevieve Price, and Gwendolyn Wolfe were organized into a Junior Standard Bearer Society. They will meet Monday afternoon at three o'clock in the church parlors to formulate their organization.

There was a Japanese program, after the devotionals conducted by Mrs. Karl B. Alexander and the lesson study under the supervision of Mrs. Herbert Chapman. Miss Jessie Sunkle and Miss Wagner of Cleveland, who is the guests of her sister Mrs. C. K. Leggett sang solos.

After a novel flower contest, the guests were invited to have tea in a real Japanese tea room with two pretty "Japanese" maids Misses Mabel Sunkle and Helen Karney pouring.

Mrs. W. Paul Zimmerman, of Muncie Indiana, who with her little daughter Jean are spending the summer with the former's parents, Mr. and Mrs. Mart L. McCoy, of North Fayette street, entertained with her sister Miss Doris McCoy at a beautifully appointed luncheon of twelve covers, Thursday.

The spacious rooms of the home were cool and inviting, and sweet with the fragrance of sweet peas and nasturtiums.

The luncheon table was lovely with a large mirror plateau mounted in silver on which rested a large Japanese bowl filled with pink snap dragon and greenery. Pretty little hand painted place cards marked each cover, and a menu of elaborate courses was served, the color scheme of pink and white being effectively carried out. Mrs. Emma Harris catered.

Seated with the hostesses were Miss Eva Gray of Springfield, Miss Lorell Shepherd of Columbus, Miss Louise Hewitt, of Sedalia; Mrs. Walter McCoy, Mrs. Herman Price, Mrs. Jess Feagans, Mrs. Loring Brock, Misses Helen Baker, Louise, Mary and Jeanette Weaver.

Mrs. Zimmerman received in a becoming gown of midnight blue georgette elaborately beaded and Miss McCoy, brown printed voile, with lace blouse. Mrs. McCoy assisted her daughters.

RIOTERS HOLD CITY IN GRASP DURING EVENING

Score of Persons Injured, Including Police Chief, Cars Overturned, Presses Wrecked, Other Acts of Violence Perpetrated.

(By Associated Press)
Denver, Colo., August 6.—Nearly a score of persons were injured, several of them seriously, and two cars were badly damaged as a result of an attempt of striking street car men and their sympathizers to prevent operation of cars by strikebreakers late this afternoon.

Shots were fired, wounding several persons. More than a thousand strikers and their sympathizers who had marched to the city hall for a conference with the mayor were parading the downtown section of the city when the rioting started.

A motorman strikebreaker is alleged to have shot a strike sympathizer, and the crowd proceeded to attack the motorman.

CHIEF OF POLICE HURT
Chief of Police Armstrong was seriously injured when hit on the head with a brick and a policeman was shot when rioting was resumed tonight.

BARRICADE CATHEDRAL
Rioters overturned and wrecked a street car near the cathedral of the Immaculate Conception. The strike breakers sought refuge in the cathedral, where they have barricaded themselves.

WOMEN FIND NEW USE FOR THEIR HAT PINS
Hat pins, famed as woman's chief weapon of defense this year have a new function in the kitchen. Layer cakes which have been iced with the aid of hat pins are expected to be exhibited for awards by ingenious housewives at the Ohio state fair in Columbus, Aug. 30 to Sept. 4.
To keep the layers of a cake from slipping while the top and sides are being iced, it has been found convenient to stick a new hat pin down through the layers and allow it to remain in place until the filling has hardened.
Other novel bits of valuable information also may be picked up by housewives in the woman's department of the fair.

AERIAL TRANSPORT ON THE INCREASE IN ALL COUNTRIES

(By Associated Press)
London, (By Mail)—Progress in civil flying made by the various countries of the world since the armistice is discussed in a detailed report just made public by Sir Frederick Sykes, Controller-General of Civil Aviation in Great Britain.

Deplorable fact that Germany, Austria, and Hungary are forbidden, under the terms of peace, to manufacture or import aircraft engines, the report points out that these three countries are in process of organizing departments of government to deal with civil aviation. At the present time Sir Frederick says, there are twenty-five air transport companies in Germany and the number is increasing monthly.

Shortage of fuel and the general chaotic economic situation is retarding aviation in Austria, says the report. Belgium has organized an Air Ministry and has established air attaches in Paris and London. The government, it is said, has appropriated 2,000,000 francs for development of flying in the Belgian Congo.

Great progress is recorded for France which has air attaches in all the chief capitals of the world, whose duty it is to study the aviation in various countries.

France, he says, has acquired five aerodromes and 24 landing grounds for the use of civilian flying and is also planning to connect all her colonial possessions by airplanes.

Italy has appointed 16 air attaches in as many countries says the report and is spending large sums of money in order to keep her self in the front rank of aviation development.

GERMANS DETERMINED TO RESIST INVASION
Berlin, Aug. 5.—The German government is determined to prevent entente from sending troops through Germany to help Poland, according to a declaration made in the Reichstag today by Dr. Walter Simons, the Foreign minister.
Dr. Simons intimated that if the necessity arose, Germany would fight to prevent such a "violation" of German territory.

COTTON AND CORN WORM ON TOMATO

For some weeks past, tomato growers have been puzzled by the appearance of a small worm which has been creating havoc among young tomato plants. Its identity has been a problem to most growers and an investigation was begun.

An expert of the Sears & Nichols factory who has been working on the problem discovered that the attacking worm is the "corn earworm" or the "boll worm" of cotton. In other words, the same worm attacks the fruit of all three plants. It is a small brown worm which eats up the green tomatoes on the young plants.

The worm can be destroyed by proper poison sprays. A spray of arsenate of lead, one pound to fifty gallons of water, should be used when the fruit is coming on. If necessary this spray should be repeated, but a few days before ripening, a Paris Green spray, one pound to 100 gallons of water, should be used. The paris green solution will easily wash off when the tomatoes are ready for market. Both sprays may be made more effective by the addition of one pound of fresh lime to each pound of the chemical.—Chillicothe News.

Confidence

A mushroom and the sturdy oak both grow from the same soil.

One springs up in a night and is soon gone. The growth of the other requires longer, but it lives for generations.

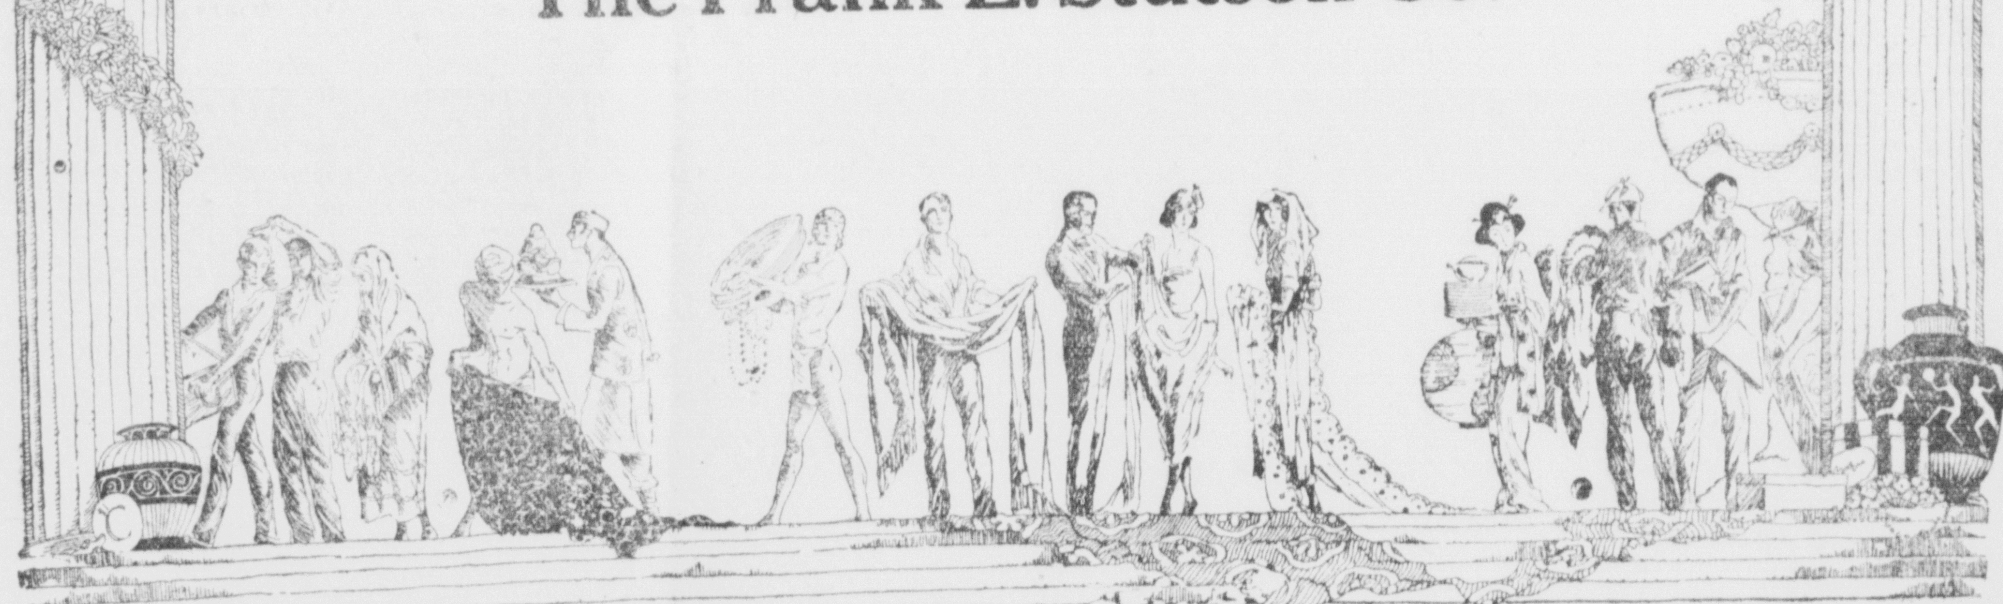

Like the sturdy oak, confidence is a plant of slow growth, but it lives long and is worth cultivating.

It has taken many years to grow the confidence this store enjoys with its patrons and we will not allow its growth to be retarded by a lack of cultivation.

Now, more than ever, when prices are high and inferior qualities of merchandise flood the market, it requires close vigilance and much pruning.

This must be a safe store in which to buy, else it will lose all the confidence you have in it. If you ever get anything here that is not right, please bring it back and get your money.

RAY R. MADDOX

Candidate for Prosecuting Attorney at
the Primary Election Tuesday,
August 10th, 1920

To the Voters at Said Primary:

Instead of adopting the "time worn" custom of stereotyping, 2,500 "personal letters" and mailing them broadcast in an effort to present by correspondence my qualification for this office, I have made an effort to see personally all the voters of the county, but find this practically to be an impossible task.

Therefore, to those whom I have failed to see, I desire to state that I am 30 years of age, and have lived in Fayette county my entire life.

Since my admission to the Bar I have been associated with my father, Tom S. Maddox, in the practice of the law. I received my education in the public schools of Washington Court House, and have supplemented the same with ten years' studious application along educational lines and practical experience in my chosen profession; and but for the assertions of my opponent relating to his ability, I should have left the public to determine my fitness upon my record as they view it.

The duties incumbent upon a prosecuting attorney are well defined and established by law, and while I, too, believe in the principle of "the office seeking the man," it some times becomes necessary for one to present facts in anticipation, that ere this is-

sue of the paper reaches you, you will have received the eleventh hour "appeal by letter" of my opponent, and old practice of the politician to beguile the unwary.

I am charged by my opponent as being "a boy," yet boys who will apply themselves by honest and diligent effort often prove themselves equal in ability to one who is only three years his senior.

The statistical report of the Ohio Secretary of State discloses that in 1893, Attorney William B. Rogers was elected prosecuting attorney of this county at the age of 26 years the same report discloses that Hon. Charles A. Reid was elected prosecuting attorney in 1896, at the age of 31 years.

Fortunately or unfortunately, I fall within that class of people, who can truthfully say, "I need the job" and I trust that a mere acknowledgement of this fact, will not, in itself, prove me unworthy or incapable of filling the office.

My friends will not be deceived or misled by any 11th-hour appeal, and I ask each and all who do not receive a copy of said appeal to obtain one, that you may intelligently analyze this answer thereto.

Very respectfully,

RAY R. MADDOX.

HAD A TERRIBLE BURNING FEELING IN HIS STOMACH

Declares it felt like red hot coals were in there and he would belch up hot, sour water. The great root and herb remedy, Dreco stopped his trouble.

"This Dreco has certainly put a stop to a very annoying trouble for me," said Mr. William Hunter who lives at 291 N. Front St. Hamilton Ohio.

"My stomach was shot to pieces as the saying goes, everything I ate went against me and instead of giving me strength, it remained in my stomach, undigested, fermented and it seemed like I was burning up. I'd belch up hot sour water that made my throat feel raw. I couldn't enjoy a single meal, no matter how careful I was.

"My kidneys got out of order and my backached terribly at times; I became quite nervous and lost a lot of sleep but I'm a happy man today for Dreco has knocked out all these troubles and put my stomach back like it used to be. I'm eating things now that I denied myself for a long time. Dreco has also strengthened my kidneys and over come the constipation. I've told lots of folks about Dreco and they are taking it on my say-so."

All druggists now sell Dreco and it especially introduced in Washington it is especially introduced in Washington C. H. by Frank Christopher.—Adv.

Your Success Depends

Your success in business as in the "business of life" depends upon your ability to grasp every-day problems and to get along with people.

And you can't hope to do either if you're always "feeling bad" because of stomach and liver trouble and constipation. Ills of this sort sap your energy and vitality and should be stopped immediately.

Go at once to your druggist and get a 25c box of **BLACKO** Stomach and Liver Tablets. Take one immediately with two glasses of water. This will start a pleasing, easy action that will cleanse the system in a hurry.

Then after you have secured natural regular action there is no necessity to weaken those organs by daily use of oils or purgatives. Simply take a **BLACKO** Tablet when needed and you'll be fit and rough and ready every day.

From your druggist, or mailed direct, postpaid. 25 cts. box of 28, with complete directions.

CAR IN DITCH WOMAN INJURED

When an automobile, a Ford Sedan driven by Frank E. Haines took the ditch on the Chillicothe pike at the corporation line on South Fayette street about 2:30 o'clock Thursday afternoon, his mother, Mrs. Clara Haines, of Leesburg, had her left lower limb fractured below the knee and a gash that required several stitches was made in her right arm. Mrs. Ida Durnell, an aunt of Mr. Haines, was stunned but was not seriously injured.

A car that was passing removed Mrs. Haines to the Haines home on Washington Avenue and a doctor was summoned. It was not realized at that time that Mrs. Haines had sustained broken bones. After examination she was taken to the Fayette Hospital where the fracture was set.

Only the fact that the car was running at a very moderate rate of speed probably prevented more serious consequences. After taking the ditch the car struck a telephone pole and Mrs. Haines who was riding in the rear seat, was thrown heavily against an iron bar that was unprotected when the front seat was folded.

Mrs. Durnell was stunned for several minutes but was not seriously hurt. She was also thrown against the seat.

MABLEY AND CAREW INSTEAD C. C. CLUB

After being ousted from the semi-pro pennant race in Cincinnati and believing that they would be able to appear in this city Sunday, the Coca Cola baseball club notified the Washington Athletic management Thursday that they would not be able to fill the engagement in a satisfactory manner because of illness of several players and if it was all O. K. with the Washington club they would like to send a substitute team. When the Coca Cola manager named the Mabley and Carew team he was told to send it on and no more questions would be asked.

The Mabley and Carew ball tossers rank with the Potters, Bellevue, and other great semi-pro teams of the Queen City and will form fit opposition for the locals. The Athletic managers are not concerned in the least over the failure of the Coca Cola to fill their date.

INQUIRY MADE ON ASSESSMENTS

Inquiry has been made by a few citizens regarding the street cleaning assessing ordinances passed by council at the last session as to what period to time the assessing ordinances cover.

The ordinances provide for an annual foot frontage assessment of so many cents per front foot, depending upon the width of the street and number of times flushed each week.

The first amount, which is now due and payable to the city treasurer, William DeWees, covers the period for the present year, and is for flushing and other cleaning of the streets.

It is tire performance, not price, that decides what you really pay; hence, do not experiment with tires made to sell at sensationally low prices.

You can secure in Goodyear Tires, of the 30 x 3-1/2, 30 x 3-1/2 and 31 x 4-inch sizes, a high relative value not exceeded even in the famous Goodyear Cord Tires on the world's finest automobiles.

Goodyear experience and care are applied to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; take advantage of the opportunity to get true Goodyear mileage and economy.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag
